**Professional and Confidential Investigations**

January 31, 2005

To Whom it May Concern:

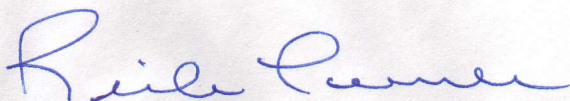

This letter will serve as an introduction to Mr. Marco Boudreaux. I had the pleasure of working with Marco for approximately three (3) years as an investigator and field supervisor for my company. Marco is an energetic, intelligent, and highly motivated person that shows initiative while working an investigation. He demonstrates his interest in investigations by listening and absorbing the knowledge that he is exposed to.

Marco's interest and ability to learn quickly enabled me to place him in a Field Supervisors position within a year after beginning employment. He assigned cases, dealt with clients, and reviewed reports. One example of Marco's ability was demonstrated when he was able to interview a murder victim's mother and sister when we were representing the person that killed their son and brother. The mother and sister began to work with us on the case and enabled us to get a reduced sentence for our client.

It is without hesitation that I can recommend Marco for any position in an investigative company.

Should you need to talk to me, please, do not hesitate to contact me at the numbers listed above.

Sincerely,

Rick Turner  
Owner
